# Valuation

Valuation is the art of finding the fair value of an investment be it controlling or a minority interest. It is the benchmark for measuring growth. Our team of experts will explore the various valuation methodologies and guide you on the best value for your business

**BUSINESS**

**VALUATION**

# M & A Advisory

Embarking on mergers and acquisitions involves significant corporate decision-making. Our role is to steer your companies towards achieving inorganic growth through business combinations, offering turnkey solutions for a seamless acquisition or disposal process.

# Fund Raising

Achieving the perfect blend of debt and equity is pivotal for optimizing your organization's value. Our expertise in fundraising encompasses securing new funds for expansion capital, refinancing debt, and strategically optimizing the cost of capital, all geared towards enhancing Total Shareholders Return.

# Working Capital Requirements

In the fast-paced business environment, the need for immediate funding is common. At KICK, we specialize in identifying your company's precise working capital needs and provide guidance to optimize your gearing for enhanced financial efficiency.

# Strategic Consulting

Balancing the right combination of debt and equity is pivotal in maximizing your organization's value. Our expertise in fundraising encompasses securing new funds for expansion capital, refinancing debt, and strategically optimizing the cost of capital, all aimed at enhancing Total Shareholders Return.

# Business Restructuring Services

In the current disruptive market landscape, businesses face the imperative of inward focus to optimize resources. Our expertise lies in guiding you through the group restructuring process, shielding you from reliance on debts, excessive leverages, liquidity crunch, inadequate Management Information Systems, high operating costs, and unyielding assets.
